

## #8.3METERS WIDE HAULAGE TO HADEED

In first week of October 2019, TEAMLIFTING successfully transported over width cargo (9.3m x 8.3m x 1.5m, 32tons) from Dammam port and delivered to HADEED, Saudi Basic Industries Corp (SABIC) in Jubail. We engaged our 4 axle lowboy hydraulic trailer (Broshius) with 1.5m extension and Mercedes Actros 3355 prime mover for haulage.

We could complete overall transportation in 5 days including Jubail-Dhahran highway crossings.
