We unveil “The Wave”

by Nicolas Bliatkas

An original piece of art
created exclusively for
the golden anniversary
of Cosmatos Group

This captivating 140x120 cm
canvas features shimmering
silver sheets and vibrant acrylic,
meticulously crafted to embody
the spirit of creativity, calmness
and excellence that represent us
for half a century now

still catching the waves

“The Wave”
Original painting
crafted for the
50th anniversary

The theme of the painting is the sea at dusk.

The solace given by glazing at the horizon and at the same time the paths that open to the liquid element for the benefit of humanity through transportation

We launched a golden pin in a limited edition, specially designed for our executives, to landmark the 50 years anniversary of Cosmatos Group.

This exclusive pin is a symbol of our commitment to quality and success

BUILDING CIRCLES OF TRUST.

We often say that behind the successful course of a company there are outstanding executives to be found, and we won't disagree with that.

In our line of work, our colleagues are a second family. They are the people with whom we share joys and sorrows.

When in success, our smiles meet, and when in difficult times we all put our backs together.

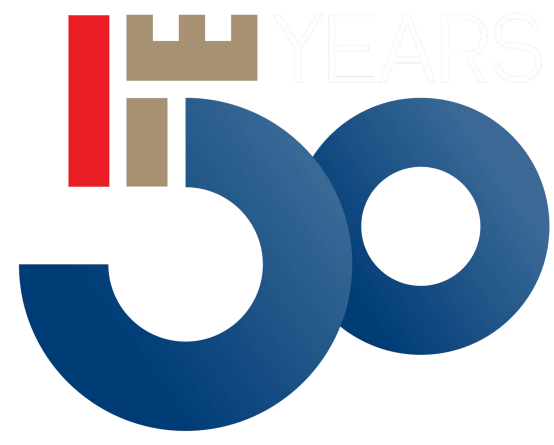

Depending on each post, his/her contribution is sometimes more visible and other times less, but always it is undeniably invaluable and equal to all the rest.

However small one's contribution may be, its absence shows its importance.

**WORKING
TOGETHER
AS ONE.**

On the occasion of celebrating our 50 years, we awarded the Managers of the Group as a gesture expressing our appreciation for their continuous efforts.
