MODPACKGROUP

INTELLIGENT INDUSTRIAL RELOCATION
PACKING AND EXPORT SERVICES

Modpack Group - ONE STOP SHOP SERVICES !!!

What we do ?

- ✓ Industrial Relocation
- ✓ Export Packing
- ✓ 3D Piping and Engineering Design
- ✓ Multimodal Transport

Founded in 2007 by Valentin Malaescu, Modpack Group, is today one of the largest companies in providing One Stop Shop Services.

If you were to ask him where his passion lay, he would say Engineering. From his teenage years, he always had a passion for engineering and that is how his career started.

In 2007 he started his own business . With just 2 clients and a small set up, he has grown his business successfully year by year.

Entrepreneur of the month – US Embassy

Modpack System is now a multi-million-euro business with over 1000 clients worldwide.

The U.S. Embassy awarded Valentin Malaescu as Entrepreneur of the Month.

As entrepreneur he sees the potential in a new idea and then takes a bold, often risky step, using only his ability, drive and courage to turn that idea into reality.

Accounting Numbers and Turn-over

MODPACKGROUP

INTELLIGENT INDUSTRIAL RELOCATION
PACKING AND EXPORT SERVICES

Year	Turn-over (EUR)
2022	9.8 mill.
2021	5.2 mill.
2020	4.4 mill.

By offering our services as a unique provider of globally integrated services, Modpack Group has made a significant investment in the future of the company and its employees.

This strategy helped us to obtain a leading position into the market and to grow the business year by year.

Imports and Exports

Exports

The top exports of Romania are

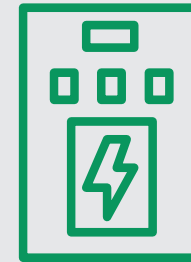

**Motor vehicles:
parts and
accessories**

Cars

Insulated Wire

**Electrical Control
Boards**

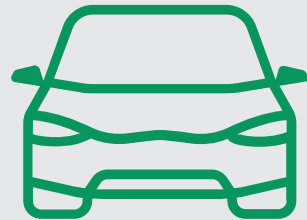

Wheat

Imports

The top imports of Romania are

**Motor vehicles:
parts and
accessories**

Cars

Insulated Wire

**Refined
Petroleum**

**Packaged
Medicaments**

Port locations

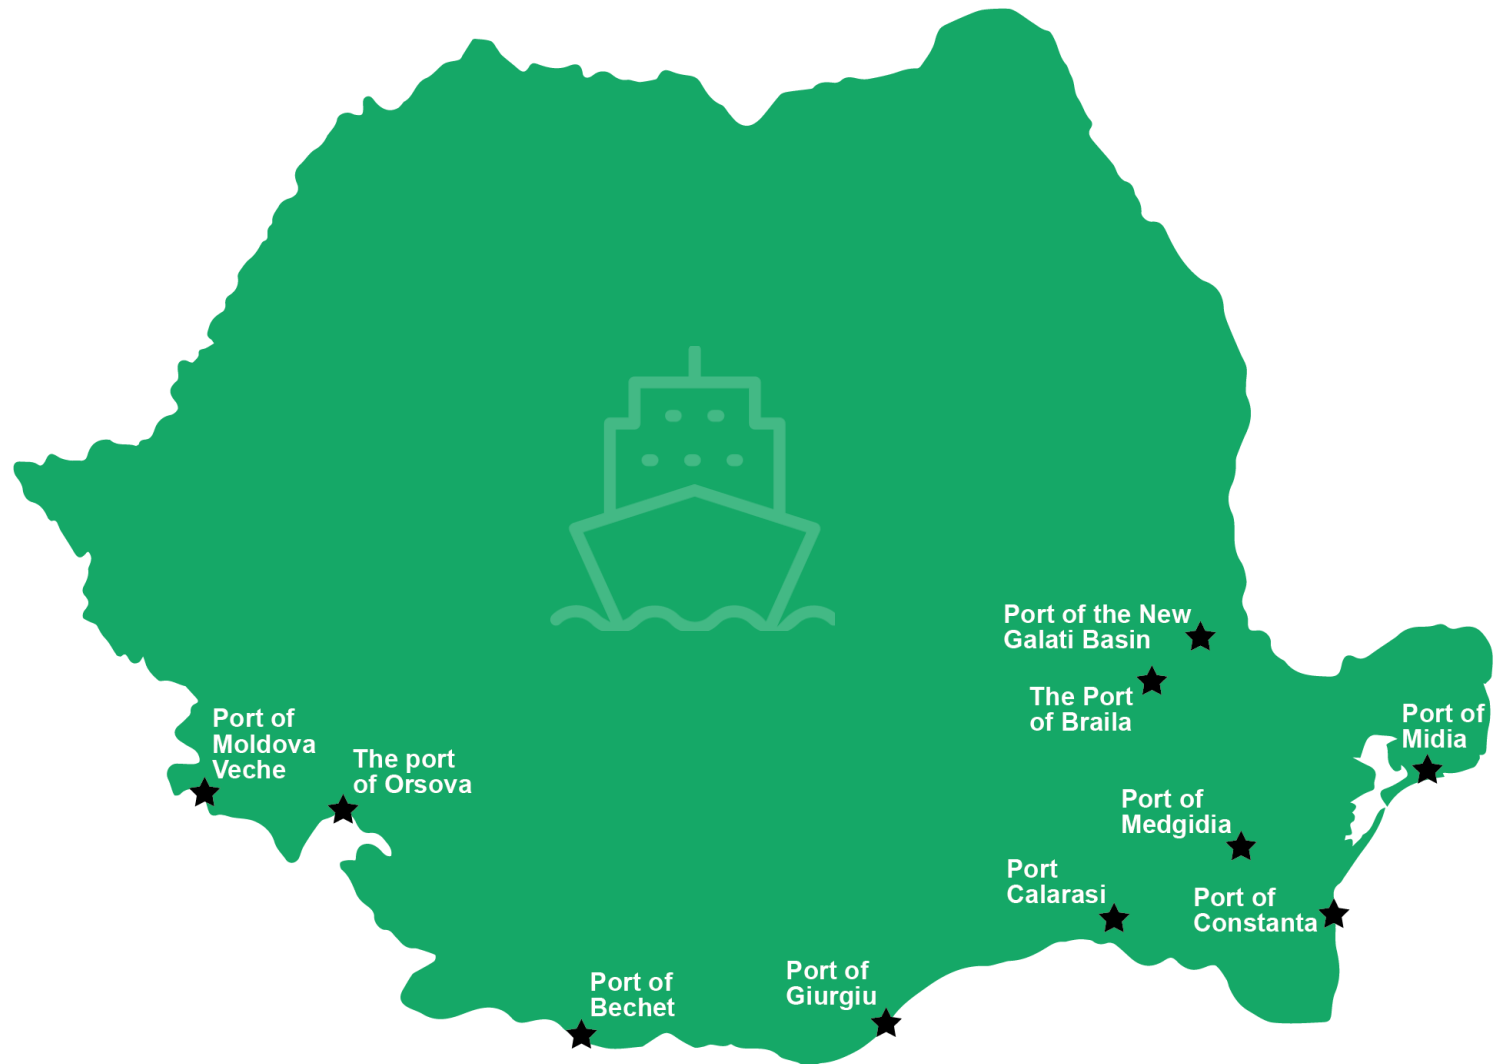

1. at Black Sea:

- **Port of Constanta**
- **Port of Midia**
- **Port of Mangalia**

2. at Danube river:

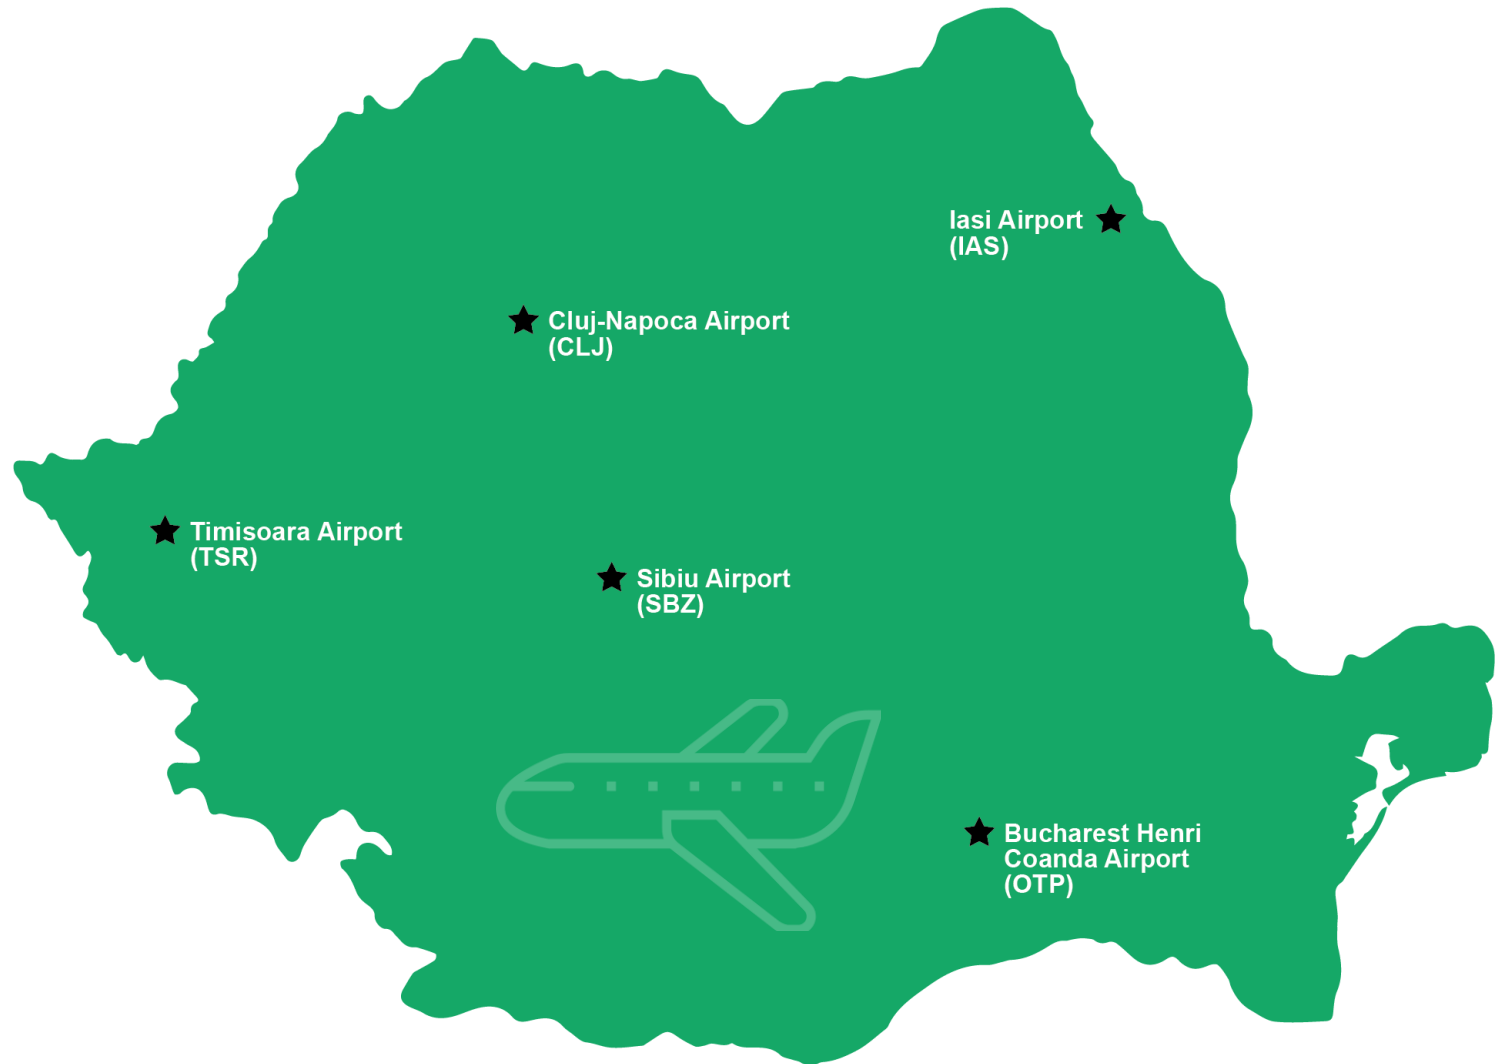

- **Port of Medgidia**
- **Port of Galati**
- **Port of Braila**
- **Port of Tulcea**

❖ and other port cities, located on the Danube River

Airport locations

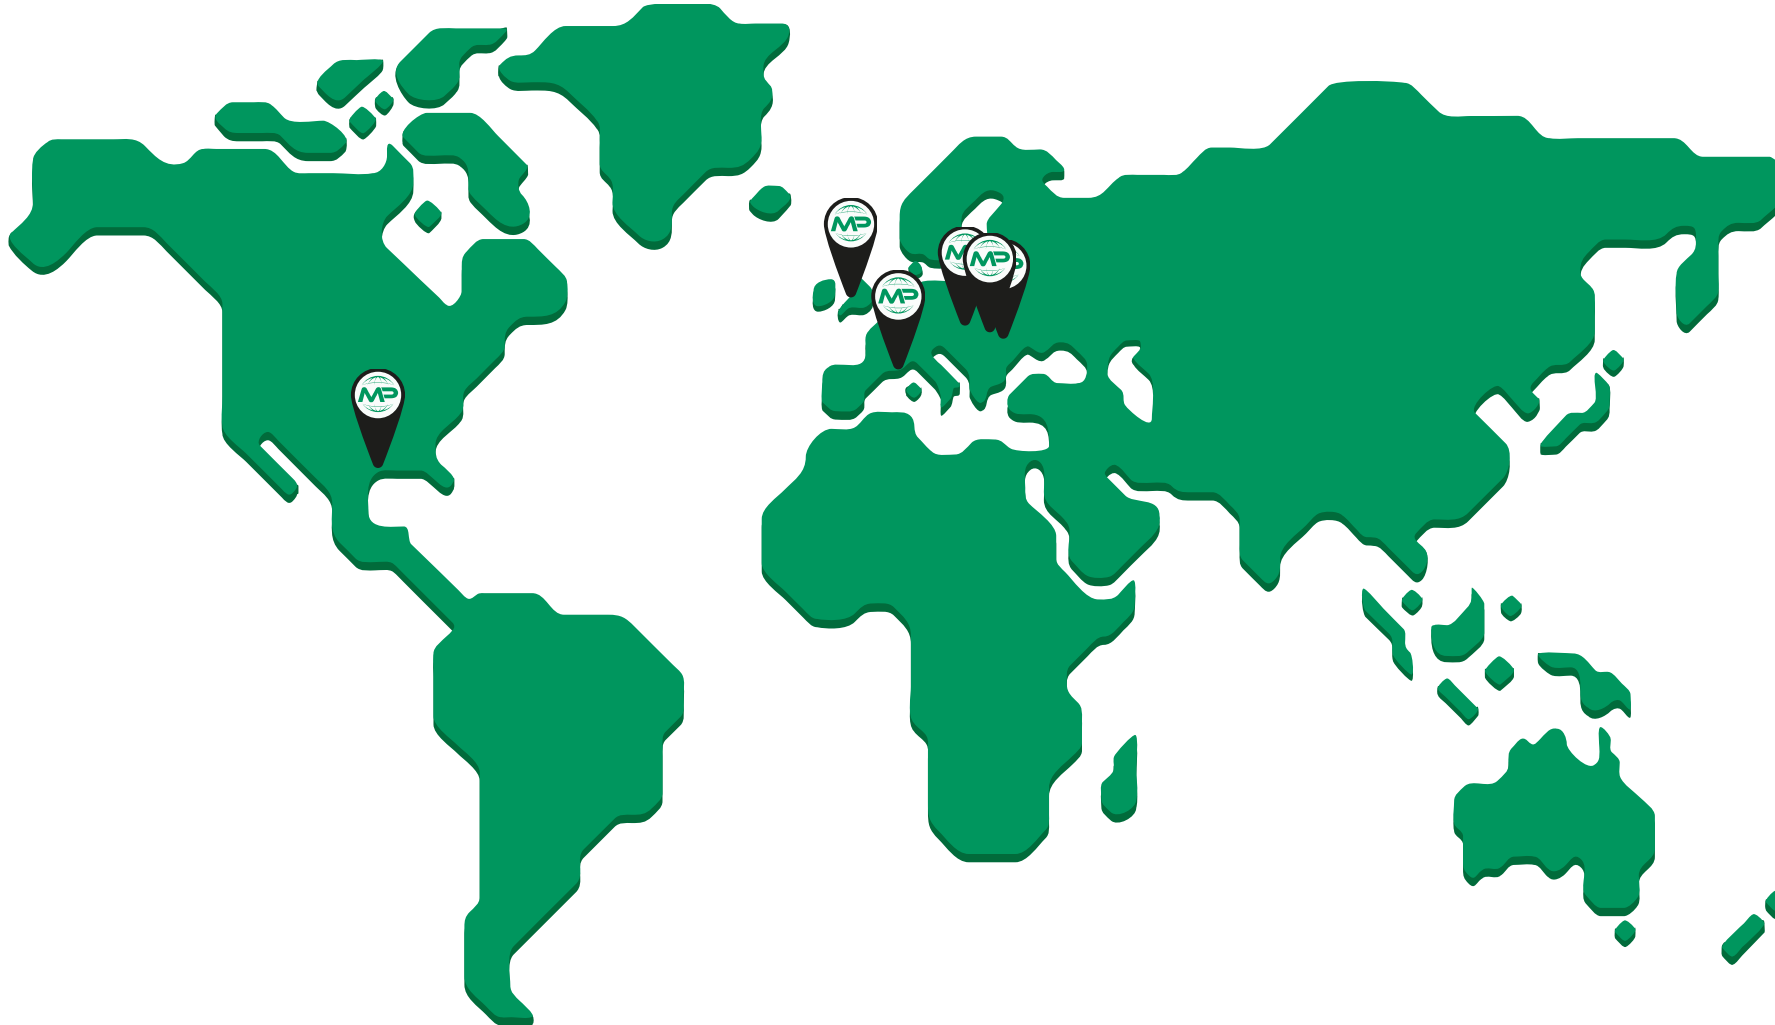

- Bucharest Henri Coanda Airport (**OTP**)
- Cluj-Napoca Airport (**CLJ**)
- Timisoara Airport (**TSR**)
- Iasi Airport (**IAS**)
- Sibiu Airport (**SBZ**)
- Brasov-Ghimbav Airport (**GHV**),
recently opened, located in the
industrial area
 - ❖ and other airports, located on
biggest cities

The main transport routes in Romania are well-developed, in good condition:

- In total, the rail network is 10,759 kilometres long
- In total, 942 km of motorway and expressways open to road traffic and another 382 km in the execution

PACKING AND EXPORT SERVICES

Orkla Relocation Project

Orkla Relocation Project

MODPACKGROUP

INTELLIGENT INDUSTRIAL RELOCATION
PACKING AND EXPORT SERVICES

Client

Orkla Sia

Location

Adazi Latvia (40 km from Riga)

Start date

January 2022

Completion date

March 2023

Orkla Relocation Project

Mission – Relocation of 6 biscuit and waffles production lines from Kungälv, Sweden to Adazi, Latvia in 3 relocation stages.

Project key numbers

Total work hours

17,000 hours

Design hours

600 hours

Human resources involved

28 operators, site coordinators, engineers and designers

Lines relocated

6 lines

Total parts transport

41 trucks

Disciplines involved

Mechanical, electrical, piping, logistics, management

Orkla Relocation Project

MODPACKGROUP

INTELLIGENT INDUSTRIAL RELOCATION
PACKING AND EXPORT SERVICES

Stages

Existing lines surveyry

- Existing equipment measuring in old factory;
- Pipes routes survey and instruments identification
- Modifications needs and modification strategy elaboration

New lines design

- 3D modeling of existing equipment (machinery, conveyors, etc.);
- Implantation of the 3D equipment in plant BIM model and layout (new lines design)
- Design of new auxiliary equipment and service equipment (platforms, etc., supports, cooling cabins);
- P&ID elaboration;
- Piping and new routes design;
- New service networks design (heating systems for pipes jackets);

Relocation

- Dismantling;
- Cleaning;
- Packing;
- Transport,
- Implantation according to layout;
- Utilities connection,
- Dry test.

Orkla Relocation Project

MODPACKGROUP

INTELLIGENT INDUSTRIAL RELOCATION
PACKING AND EXPORT SERVICES

Statement of work

In order to complete the project several key point was considered:

For relocation documentation one of Modpack Team conducted a survey in old factory in Kungälv Sweden to physically measure the existing biscuit production equipment and to gather info about the technological pipe routes and instruments.

The collected data was used to transform the measurements in equipment and full line drawings, P&ID schematics, equipment and instrument list, and other engineering documentation needed to fully describe the production line to be relocated.

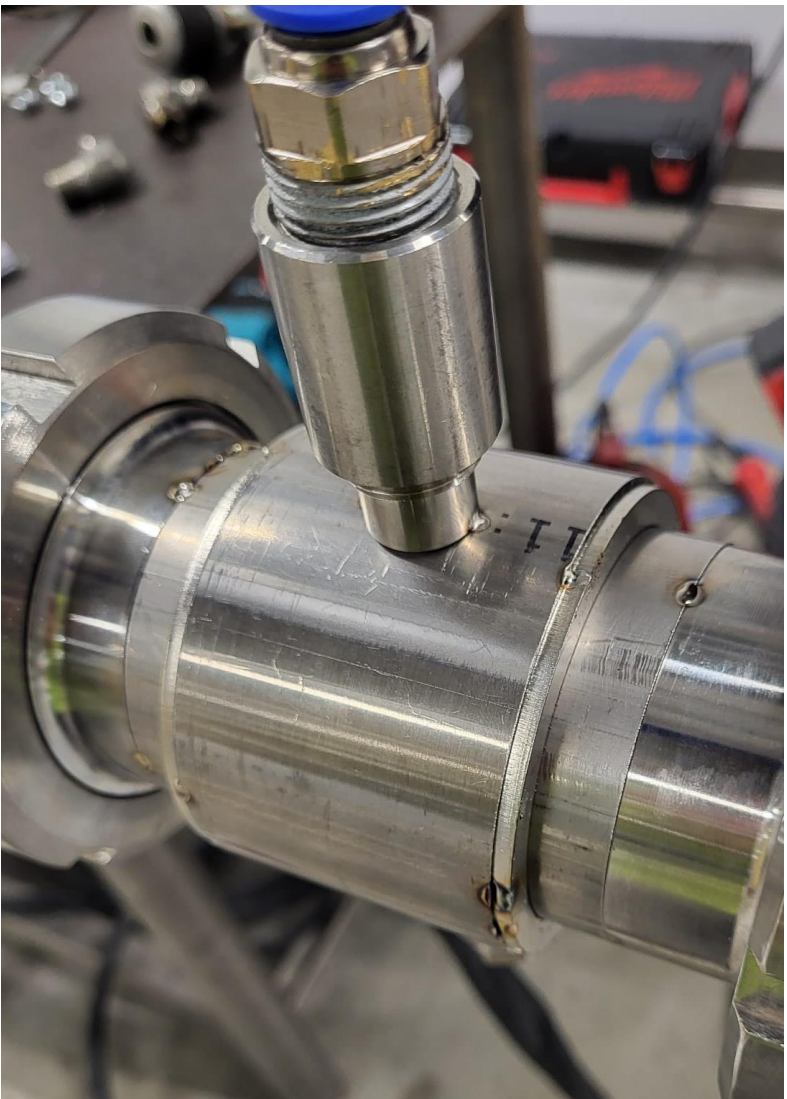

Following the engineering documentation and by means of specific methodologies and procedures, the 6 biscuit production line where dismantled, cleaned by a professional team, packed, transported and implanted in the new location in Adazi, Latvia.

Equipment position was verified, utilities connection was made, and dry run was performed to ensure that all motors are spinning in the correct directions, all conveyor belts are aligned and wet commissioning premises are assured.

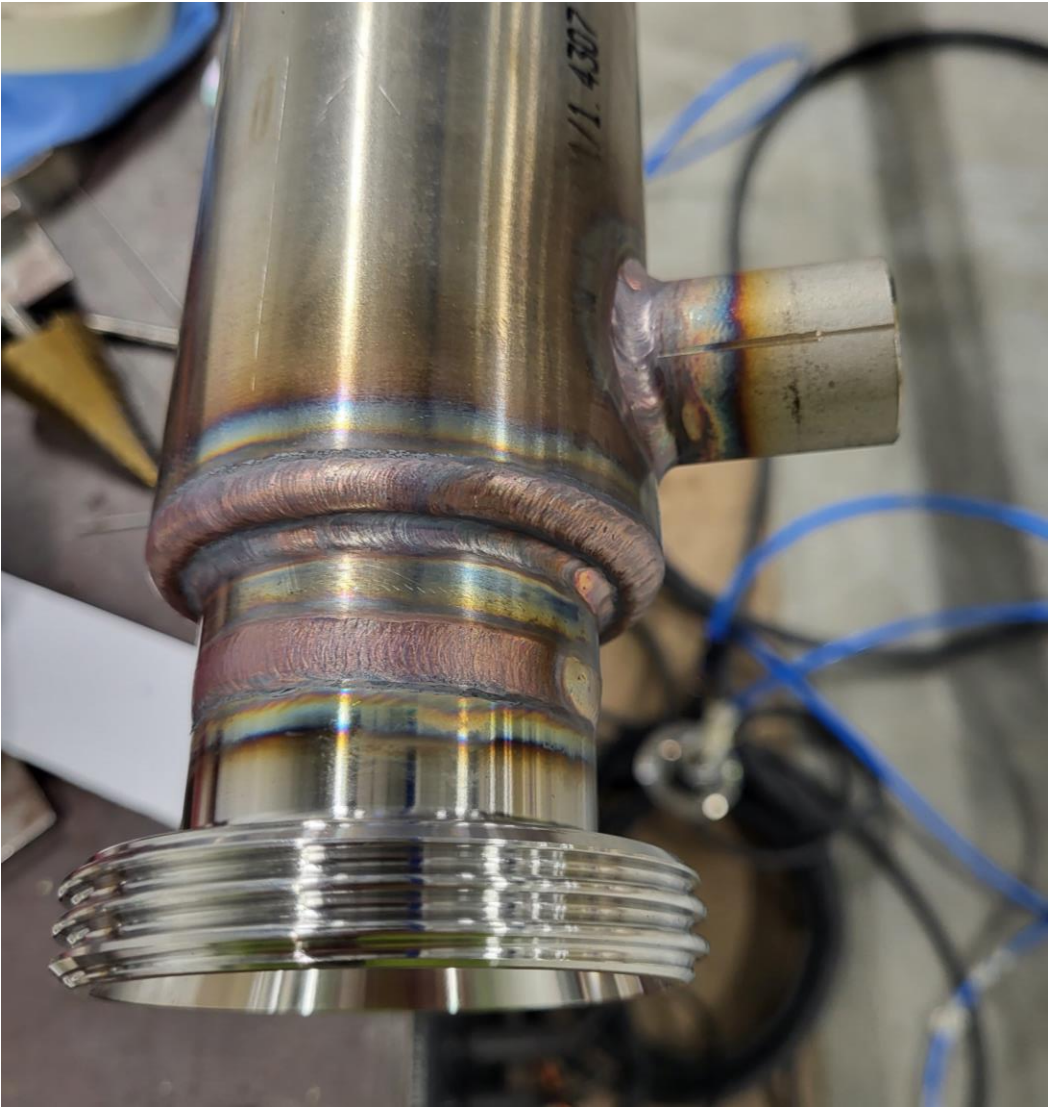

Modpack team assured commissioning assistance and interventions.

Orkla Project

MODPACKGROUP

INTELLIGENT INDUSTRIAL RELOCATION
PACKING AND EXPORT SERVICES

Relocated and disassembled oversized equipment utilized for manufacturing specialized gears in the **Oil & Gas industry**. The Modpack team executed the following tasks:

- Disconnected the equipment from necessary utilities such as air, water, electricity, and emulsion.
- Carried out mechanical and electrical disassembly in accordance with the provided documentation.
- Utilized appropriate lifting equipment specifically designed for handling equipment of varying weights.
- Created and tailored packaging solutions based on the equipment's dimensions and weight.
- Loaded the equipment onto trucks using dedicated machinery suitable for heavy loads.
- Transported the equipment to the port and securely loaded it onto a sea vessel.
- Safely delivered the equipment to the client's headquarters located in the USA. The equipment had a weight up to 80 tones.
