AIRFREIGHT SERVICES

We offer traditional air freight services as well as freight requiring DG and heat treatment.

A dedicated operational air freight team monitors changes and trends within the business, so they can provide timely information and advice on the most appropriate transport solutions.

Shipments are tracked from the moment they are loaded to the recipient's door.

At the same time, we ensure the highest levels of security and quality. We keep you regularly informed of the status of all new consignments so that you can organise what you need to do next in the best possible way.

We are happy to assist you with customs clearance, procedures and country-specific documentation and are at your disposal throughout the process.

SEAFREIGHT SERVICES

We have a range of solutions for shipping your products by sea, ensuring that your goods arrive safely and on time anywhere in the world!

OUR SOLUTIONS AND OPTIONS ARE:

FCL (full container)

Our team of operational specialists can arrange full container transport anywhere in the world, with any freight parity.

In addition to standard 20', 40' and 40' HC containers, we also offer refrigerated, sidewall-less and open-top containers.

LCL (groupage container transport)

For smaller shipments within consolidated containers, we offer services that allow you to optimise costs and provide other benefits.

Our experienced team will organise tailored door-to-door solutions to meet your goods' needs, from cargo pick-up to delivery to the recipient's door.

ROADFREIGHT SERVICES

Our road freight services include full truckload (FTL), less-than-truckload (LTL), groupage and express.

We organise transport on all routes with road infrastructure throughout Europe and Asia as far as possible. For commercial freight, we have scheduled services to optimise transit times.

We offer customised transport services for a wide range of products, such as oversized cargo, foodstuffs, pharmaceuticals, temperature-sensitive goods and valuable cargo. Our trained professionals also ensure organisation and tracking.

Our road transport services also include special requests and tailor-made solutions!

Thanks to our extensive and carefully selected network of partners, we will find the best transport solution, adapting quickly to any situation - ensuring that your shipment reaches its destination safely and on time!

WAREHOUSING SERVICES

Our logistics service package is complete (warehousing, transshipment, sorting, labelling, distribution).

What we offer: pallet and non-pallet, ADR/IMO and general cargo management.

Thanks to the many years of experience and expertise of our team, in addition to internal and external logistics solutions, we can also offer the services of special warehouses and distribution centers for the storage of foodstuffs, perishable goods, pharmaceuticals and medical products according to the temperature regulation system.

Our services:

Advanced logistics base

outstanding storage capacity - cc. 7000 sqm

24-hour guarded warehouse and advanced camera system

Customs, excise and HACCP license

Inbound and outbound storage based on FEFO, FIFO requirements

Block and rack storage

ERP system based on customer needs

Online stock traceability

Fast response time, even for web service (B2B, B2C),

Computerized inventory management and control - Article number\ Serial number\ FIFO\ Production ID

Temperature and humidity controlled

Shipping and forwarding since 1919

PROJECT CARGO TRANSPORT

With many years of experience in international freight forwarding, our expert teams provide solutions for project transport ranging from overweight and bulk goods, through RoRo (roll-on/roll-off), machinery and industrial equipment, to the transport of fully dismantled factories.

We design and create customized and complete solutions for your oversized and heavy shipments. A dedicated contact person is always available to provide professional assistance and ensure speed, security and seamlessness throughout the supply chain.

We offer an all-in-one solution for OOG cargoes - transport, clearance, escort, transshipment and, in cooperation with our sister companies and a team of professional customs brokers, independent inspections, reporting and certification.

CUSTOMS PROCEDURES FOR EXPORT AND IMPORT

We offer full customs clearance, transport (air, sea or road), customs storage and related ancillary services for import and export shipments.

AD HOC OR PERMANENT CUSTOMS CLEARANCE

Customs clearance, on an ad hoc or permanent basis, under a standard or simplified procedure, according to the client's requirements, even on the client's premises, with direct or indirect customs representation

LOGIN

- Customs warehousing, customs procedure in temporary storage (90 days)

CONTROLS

- full customs clearance of road traffic
- exports (on the basis of a local export licence)
- import customs clearance (indirect/direct procedure)
- full customs clearance of rail container traffic (BILK, MAHART, METRANS)
- authorised consignor and consignee authorisation (T1, T2 document departure with TC33 comprehensive guarantee authorisation)
- Completion and validation of Certificate of Origin, EUR1, A.TR
- Completion and departure of TIR Carnet
- Completion of CMR

OTHER

- Customs advice
- Surety

RAILFREIGHT SERVICES

Extensive knowledge of freight traffic and the possibilities of rail carriers on certain transport routes allows us to quickly find solutions and propose the best routes for door-to-door transport, whether the rail transport requirements are bulk (grain, wood, iron products, etc...) or containers (LCL or FCL), whether you need traditional or intermodal transport (road/rail combination, ship/rail)

If you need to transport large quantities of goods to the same consignee, a block train service is the best solution for you.

Cooperation with domestic and private carriers, as well as with logistics companies around the world, allows us to connect the economic centres of Europe and Asia by rail.

Shipping and forwarding since 1919
